RELIABLE MANUFACTURER
OF ELECTRICAL DEVICES
WITH 77-YEAR TRADITION

LOCATION

- ✓ 45 km from Košice, 20 km from the D1 highway, 50 km from Košice Airport
- ✓ Region with industrial tradition and available technical workforce
- ✓ Labor costs 25-40% lower compared to Western Slovakia
- ✓ Suitable conditions for industrial production and logistics
- ✓ Proximity to Poland and Ukraine – advantage for export to Central and Eastern Europe

COMPANY PROFILE

- **Tradition and Focus:** SEZ Krompachy, a.s. has a 77-year tradition and is a reliable manufacturer of complex low and high-voltage electrical devices for circuit protection and control, including protection against electric shock.
- **Technologies and Innovation:** The company possesses its own manufacturing and development capacities – modern technologies for the production of metal and plastic parts, molds, tools, surface treatments, welding, and assembly. It has an on-site testing laboratory and cooperates with universities for continuous innovation.
- **Certification and Markets:** Domestic and international sales are supported by certificates from accredited testing laboratories in Slovakia and abroad; the company holds EN ISO 9001:2015, EN ISO 14001:2015 certificates, and product certificates such as UL, VDE, CCA, and CCB.

Export to 30+ countries

Over the past few years, the company has successfully built upon the achievements reached in the electrotechnical sector during the 80s and 90s, gradually reclaiming a corresponding position on the domestic market, in the Czech Republic, and other European and global markets. By balancing export activities, the company was able to significantly eliminate the consequences of local economic crises and competitor activities, thereby ensuring the stability of the company as a whole.

2026 ECONOMY

- The company combines cost efficiency with competitive regional salaries, ensuring high stability and professional qualifications of its employees.

PRODUCTION

Tool Room

- Pressing workshop
- Metal machining workshop
- Welding workshop
- Product assembly
- Surface treatment

Machining Equipment

- Copy milling machine
- CNC milling machine
- Machining centers
- Form grinding machine
- EDM die sinking machines
- EDM wire cutting machines
- EDM drilling-milling machine
- 3D measuring machine
- Micro-welding unit

340 pcs
of machines

Technological equipment

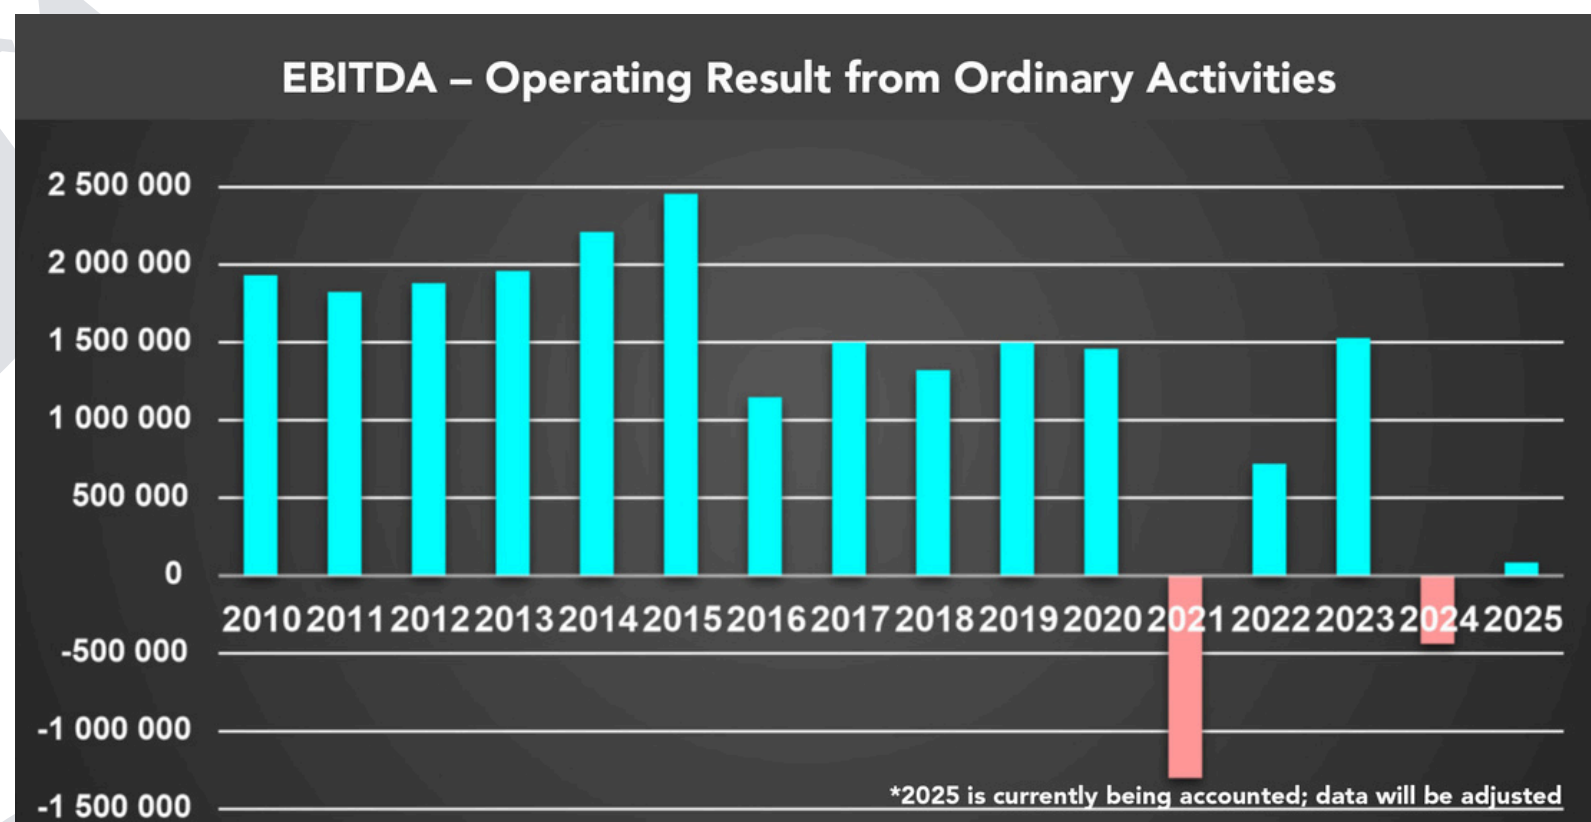

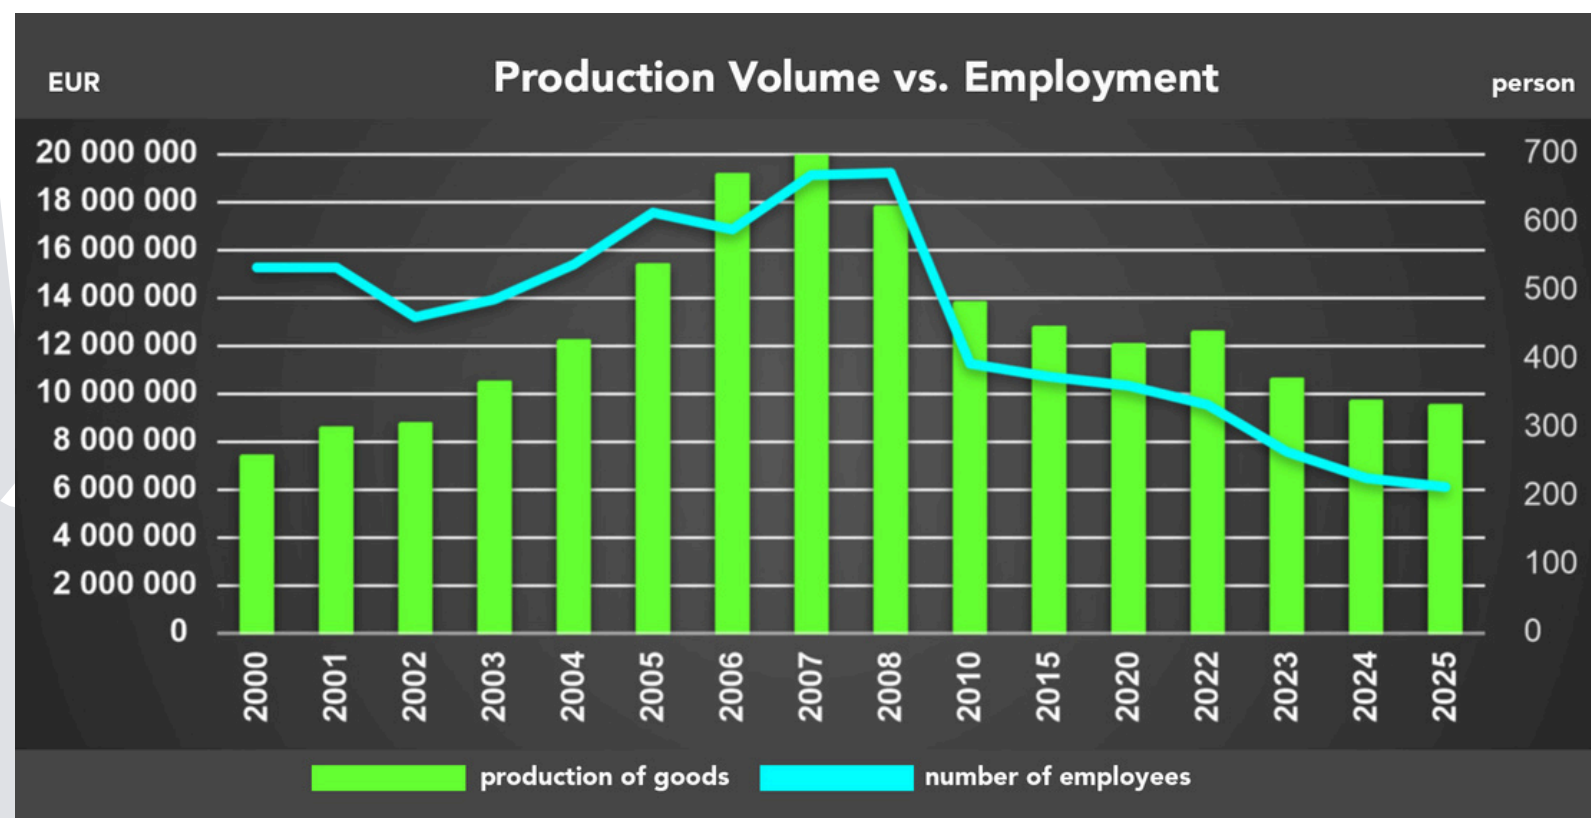

- Molds for pressing thermoplastics and thermosets
- Tools for sheet metal and bulk forming
- Welding, spot welding, stitch welding, positioning, drilling, threading, milling, clamping, assembly, and riveting fixtures...
- manufacture of machined components
- Micro-welding etc.

566 pcs
of molds

Software

- NIGRAPHICS NX11
- Mold Wizard
- Manufacturing
- SOLID EDGE
- AUTODESK INVENTOR ...
